

The Smelliest Day at The Zoo by Alan Rusbridger

'I recommend this book for 4-7 year old boys and girls alike. It all starts when a bus falls through a hole and blocks the drains slap bang on the hottest day of the year. So, all the poo can't go down and makes the zoo really smelly. What will happen when the crocodile keeper send manure to her dad and her dad thinks its meatballs? How will the drains get unblocked? Read the book and find out.'

Diddy Kong Racing

'This is a new game featuring almost all the Kongs created by Nintendo. It is a fantastic racing adventure where you can customize your own symbols, racetracks and vehicles.

There is also the option of buying new race tracks to play on with money collected from around the levels. Throughout the adventure mode, the aim is to win all the races and balloon popping challenges that you can and find keys which help to unlock other players. It is very similar to Mario Kart although the graphics have all been improved and there is much more to do.

Lastly, at the end of each world, there are bosses to defeat and finally, prepare to reap the rewards rewards...

I can thoroughly recommend this game to any Nintendo fans although you shouldn't get too addicted!'
